

Hydrology Database

Quality Codes

Daily Rainfall

Quality Code	Character	Description
1		Good continuous records
2		Good quality edited data, change from original
18	*	Rainfall in period, timing of event unknown, distribution unknown, accumulated value to follow
22		ALERT/Non VCWPD data not finalized (partial QA/QC)
23	T	Trace precipitation
24	s	Snow part of daily value
26		Good daily records, distribution unknown, stream data finalized
28	Y	Good daily record, distribution unknown
41	Z	Good monthly data, distribution unknown
70	p	Prorated from nearby station
74	P	Prorated from nearby station, accumulated value, distribution unknown
80	Y	Accumulated multiple daily value
104	E	Estimated data correlated with nearby station(s), accumulated value, distribution unknown
130	S	Snow may have affected measurements, totals may be high or low
142	?	Questionable Measurement - Check Nearby Gages
151	M	Missing data, no electronic data
201	M	No data/records available
